Industrial Precision Balances

GP Series

For heavier weighing, the GP gives you the capacity of a scale and the precision of a balance. Choose from an adjustable swing arm display (GP) or mountable detached display (GP-S). SmartRange feature for improved precision, regardless of tare container weight.

- Swing arm design or detached display and platform configurations
- IP65 dust and water protection, aluminum & stainless steel construction, standard RS-232C interface
- Automatic calibration prompted by temperature change, and user-initiated calibration with one touch of the CAL key
- Application modes include Hi/Low comparator, accumulation function, counting, percent and dynamic weighing, weigh below and multiple weighing units. GLP, GMP and ISO compliant
- Industry leading 5-year A&D warranty

Bench Scales – Dry Use

EK-L Precision Bench Scales

Ideal for use when large capacity and high resolution are required at the same time. The EK-15KL has 0.1 g readability across its full 15 kg capacity. The EK-30KL has a smart range function. This is especially useful when the gross weight exceeds 3 kg yet 0.1 g readability is needed to measure net weight when using heavy tare containers. A single press of the re-zero key restores the 0.1 g precision range up to 3 kg.

- Large weighing pan for measurements of bulky objects or quantities
- Hygienic and scratch-resistant stainless steel (SUS430) weighing pan
- Easy-to-read LCD display, white backlight, Standard RS-232C interface
- GLP/GMP/GCP/ISO compliant
- Operation with either AC adapter or optional rechargeable battery
- 2-year A&D warranty

FG-K Series

FG-K Series combines fast response time and rock-solid durability in an easy to use package. Three user selectable display readings let you choose the resolution needed for the job. Additional weighing modes include parts counting and HI/OK/LOW comparator function for checkweighing. Weighs in lb, kg, oz.

- “N” models (in grey below) Legal-for-Trade US (NTEP) and Canada (MC).
- Other models are high resolution up to 12,000 divisions
- Fast stabilization time - 1 second, stainless steel weighing pan. Simple four key operation
- Display configurations include column mount (“A”), base mount (“B”) below, wall mount bracket option
- Battery operation with 4 C cells (not included), up to 150 hours run time. AC adapter included
- Application modes include Hi/Low comparator, counting, and multiple weighing units.

Bench Scales – Dry Use

HV-C/HV-CP Series with Comparator Lights

- HV-C are Legal-for-Trade US (NTEP) and Canada (MC)
- Fast stabilization within 1 second, IP65 dust and water protection for base (load cell and pan), stainless steel pan. Built-in printer with CP models
- Battery operation (-C models) with 4 D cells (not included), up to 1200 hours run time
- Backlit LCD display, bright multi-colored 5-step LED comparator lights.
- 10-digit alphanumeric keypad
- Three Interface slots for optional communication interfaces: USB, RS-232, relay
- 2-year A&D warranty

HW-C/HW-CP Series

- High resolution version of HV-C, with same rich feature set
- CP models have built-in printer
- 2-year A&D warranty

Bench Scales – Washdown

Advanced SW Series

SW Super Washdown Bench Scales are designed to withstand the most demanding process conditions and high pressure, high temperature cleaning. With a superior IP69K rating (1450 PSI, 175°F), stainless steel frame, load cell and weigh pan, SW bench scales are ideal for food processing applications and extremely damp locations where cleanliness and sanitation are critical. Weighing modes include parts counting and comparator function for checkweighing applications. Weighs in lb, kg, oz, g, lb-oz with easily switchable units.

- IP69K - the highest level of dust and water protection, for high pressure/temp washdown
- Stainless steel weigh pan, frame, column, and sensor
- Legal for Trade for US (NTEP) and Canada (MC), NSF listed to meet HACCP requirements
- Operates on AC or optional rechargeable battery
- Fast stabilization time - 1 second. Large multicolored LED display
- Hi/Low comparator, counting, and multiple units
- 1-year A&D warranty

Standard Plus SC Series

SC Series feature an IP68 rated all stainless steel base, column and weighing pan. The fully sealed waterproof molded indicator provides extended battery life. Weighing modes include parts counting lb, kg, oz.

- Fast stabilization time - 1 second. Stainless steel weigh pan, stainless steel frame and column
- IP68 dust and water protection. Washdown construction for easy cleaning
- Legal for Trade for US (NTEP) and Canada (MC),
- Battery operation with 6 D cells (not included), up to 4500 hours run time
- Application modes include Hi/Low comparator, counting, and multiple weighing units
- Supersized LCD with 39 mm character height.
- 2-year A&D warranty

SE Series

Identical to SC Series except epoxy-coated mild steel column, frame base.

- IP68 dust and water protection. Washdown construction for easy cleaning
- Legal for Trade for US (NTEP) and Canada (MC),
- 2-year A&D warranty

HV-CWP Series with Comparator Lights

- Legal-for-Trade US (NTEP) and Canada (MC)
- Stainless steel display and pan
- Backlit LCD display, bright multi-colored 5-step LED comparator lights
- 10-digit alphanumeric keypad
- Full washdown with IP65 dust and water protection rating
- Maintains IP65 even with optional communication interfaces: USB, RS-232, relay
- 2-year A&D warranty

Compact Bench Scales – Washdown

SK-WP Series

SK-WP Series scales are ideal for food preparation and food service. With an IP65 rating, stainless steel construction, a large removable pan, these scales are easy to clean. They are legal-for-trade in US/Canada, NSF listed and meet HACCP requirements. 1200 hour battery life (6 D-cell batteries) eliminates the need for optional AC power in many applications. Units of g, lb for all models, SK-5000WP adds oz.

- Stainless steel body and weighing pan, IP65 dust and water protection. Large clear LCD display
- NTEP Legal for Trade (US) and Measurement Canada Approved
- Battery operation with 6 D cells (not included), up to 1,600 hours run time. Optional AC adapter
- Easy one-touch full digital calibration
- 2-year A&D warranty

HL-WP Series

Compact and portable IP-67 washdown scales for portion control in restaurants, food processing and for use in harsh industrial environments. Stainless steel body, including the removable pan, can be fully submerged in water for cleaning. The HL-WP Series are NSF listed and HACCP compliant and trade-legal. Uses 6 x AA batteries or AC adapter (optional). Units of Measure: g, oz, lb-oz, lb.

- NTEP Legal-For-Trade models (see table)
- Easy to read clear LCD readout
- Battery level indicator with Auto Power-Off
- Higher capacity model feature large pan size

Checkweighing Scales – Washdown

SJ-WP Series

A&D's most robust compact washdown scale is IP67 rated and submersible for thorough cleaning. Advanced bright Red-Yellow-Green traffic light checkweighing feature is perfect for food portioning and industrial filling applications. Units: g, oz, lb, kg, lb-oz.

- Ultra-fast stabilization time - 0.5 seconds.
- Check-weighing scale with 9.1" x 7.5" stainless steel pan.
- IP65 dust and water rated. NSF listed to meet HACCP requirements.
- Up to 5000 hours with 6 D cells
- Application modes include Hi/Low comparator and multiple weighing units.
- Take-away (negative checkweighing)
- 2-year A&D warranty.

SJ-WP-BT Series

- High-resolution - only version of the SJ-WP with Bluetooth
- Wireless connection to external remote display, AD-8931
- Wireless connection to PC via USB dongle AD-8541-PC

FS-i Series

A&D's FS-i Series of Checkweighing Scales feature large, bright comparator lights, stainless steel construction, and three user-selectable resolution levels. FS-i Checkweighers satisfy both NSF and HACCP requirements. These durable scales are ideal for food processing and checkweighing applications. NTEP Certified and Measurement Canada approved models.

- Ultra-fast stabilization time - 0.5 seconds
- Check-weighing scale with stainless steel pan. IP65 dust and water rated. NSF listed to meet HACCP requirements
- Operates on AC mains; rechargeable battery option
- Application modes include Hi/Low comparator and multiple weighing units
- Large LCD display and comparator light, analog bar display - 3 modes, memory for 99 items
- 2-year A&D warranty

Compact Bench Scales – Dry Use

SK-Z Series

SK-Z Series compact bench scales are good for general weighing in most every industry and good for food applications. The rugged high impact molded housing is splash resistant and rust proof.

- NSF 169 and NSF 14159-1 listed, the highest hygienic food safety standards
- Battery operation or optional AC adapter
- Weighs in g, lb, oz, lb-oz
- 2-year A&D warranty

Counting Scales

Advanced FC-i/Si Series

FC-i Series of high-resolution counting scales offer simple and easy operation. A&D's exclusive Automatic Count Accuracy Improvement combines the two most critical performance requirements of counting scales: count accuracy and operational efficiency to correct errors caused by variation in unit weights. Bright VFD display simultaneously shows count, weight, comparator results, unit weight, ID #, and item code with up to 12 alphanumeric characters. LED prompting Navigation System for intuitive operator use virtually eliminates operator training time.

- Internal resolution up to 1/5,000,000
- 500 alphanumeric memory
- Rugged aluminum die-cast housing with splash-proof display
- Standard RS-232C with optional 2nd and 3rd ports
- Rechargeable battery
- Remote scale base option

Standard HD Series

HD Series of high capacity counting scales offer high internal resolution with capacity to 120 lbs. A&D's exclusive Automatic Count Accuracy Improvement corrects errors caused by variation in unit weights. Standard models feature simple 2-button operation, single display without keypad for ultra simple use. The enhanced models feature a large detachable 3 window LCD display/ keyboard. Also included is a comparator function mode for packaging applications.

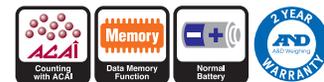

- Internal resolution with up to 1/120,000
- Operates on AC power or 6 C-cell batteries
- Memory plus function allows for accumulating count data
- Rugged aluminum die-cast housing with splash resistant display
- Options RS-232C and rechargeable battery

Basic HC-i Series

HC-i Series counting scales offer simple and easy operation. A&D's exclusive Automatic Count Accuracy Improvement automatically corrects errors caused by variation in unit weights. The Audible Weighing Assist function alerts you when approaching the target quantity. Unique accumulation function allows for storing total piece count in memory and works in automatic or manual mode.

- High internal resolution: up to 1/750,000
- Up to 99 unit weight ID memory function for easy data retrieval
- Large detachable 3 window LCD display/keypad
- Optional RS-232C and rechargeable battery

Weighing Indicators

Batch Weighing AD-4401

- High Speed Sampling at 100 times/sec.
- Up to 1 million counts of A/D resolution
- 8 auto-batch/fill/checkweigh modes
- Auto Free Fall Compensation for accuracy
- Front panel protected to IP65

Batch Weighing AD-4402

- High Speed Sampling at 100 times/sec
- Up to 1 million counts of internal resolution
- 5 line display for weight, status and set-points
- Recipe & Sequencing Memories

General Weighing AD-4410

- DSP technology to eliminate effects of noise & vibration from results
- RS-232C standard
- USB option
- SCF-Statistical Calculation Function
- Comparator Function

General Weighing AD-4405A

- Counting and accumulation functions
- 1/40,000 displayed resolution
- 0-9 keys for tare, set-points and sample count entries
- Standard RS-232C
- Built-in printer option

General Weighing AD-4406A

- Accumulation function
- 1/40,000 displayed resolution
- AC or battery operation
- Standard RS-232C
- Includes table mount bracket

Washdown AD-4407

- IP65 with stainless steel housing
- 1/40,000 resolution
- 0-9 keys for tare, set-points and sample count entries
- RS-232 standard & counting function
- NTEP trade-legal

Washdown FS-D Series

- IP65 with stainless steel housing
- Ideal for checkweighing/food processing
- 1/15,000 displayed resolution
- 3 color light Hi/Lo/Ok comparator
- Auto tare function

Super Washdown SW-D

- IP69K high pressure washdown rated
- Ultimate condensation protection
- Capacitive keys
- Multicolored LED Display w/5 comparator lights
- Rechargeable battery option

Weighing Modules

AD-4212A/B Series

Enable high resolution weighing in automated systems or bring it into the tight confines of glove boxes, fumes hoods and vacuum chambers with A&D Weighing Modules. These models come with a control unit to operate the weighing cell and display results.

Production Weighing Systems

- Portfolio of fast, precise, compact, durable weighing sensors
- Ensures maximum efficiency of your production line
- For applications in high-speed weighing, high-speed check weighing, filling, isolated weighing
- Precise weighing in confined spaces such as fume hoods and gloves bags
- 5-year A&D warranty

AD-4212C Series

The AD-4212C Series of electromagnetic digital load cells offer direct connection to a PC or PLC with standard serial, CC link and BCD available via external display controller. Transmit measurement data up to 50 times per second. Total unit width is 59 mm. Weighing pan is 50 mm wide or make your own custom fixture for your application. Leveling feet can be replaced with screws to secure to a base or fixture.

- Headless design with direct digital output via RS-232C, standard
- Ensures maximum efficiency of your production line.
- IP65 rated sensor
- WinCT AD-4212C software offers direct HMI control
- 5-year A&D warranty

Weighing Modules & Load Cells

Analytical & Microgram Weigh Modules AD-4212D Series

- Complete balance with internal calibration
- Readability down to 1µg (0.001 mg)
- Touch screen interface
- Available in sensor-only version with direct output
- Ideal for glove boxes, fume hoods with limited space
- 5-year A&D warranty

Modbus Weigh Module AD-4212L

- Powerful vibration cancelling filter
- Compact size and robust overload protection
- High-speed sampling 1000 times per second
- DIN-rail mount, RS-485 for Modbus-RTU

Approvals & Certifications

Legal-for-Trade (NTEP / Measurement Canada) versions of the scales in this catalog are indicated. Other trade-legal balances, including FX-i Precision Balances are also available. Visit our website to see why both buyers and sellers worldwide put their trust in A&D weighing solutions for such applications as:

- Pharmacy
- Research & Development
- Forensics
- Customs / Border Protection
- Gems and precious metals

Warranty & Support

All the balances in this catalog are backed by the best warranty in the industry: 5 years. Most scales and indicators are backed with our 2-year warranty. And all our products are backed by the extensive network of local A&D Weighing distribution partners who can assist you with:

- Post-sales service & support
- On-site setup & calibration

Don't Forget About Our Product Inspection Systems!

Product Inspection protects consumers and brands through 100% inspection. By identifying contaminants, deformities and ensuring product quality and weight with our In-motion Checkweighers, Metal Detectors, and X-ray Systems companies can save on rework, recall, and wasted product and packaging materials. can be programmed to work specifically for your products. Features like masking, missing components and misshaped product detection and identify a variety of contaminants including bone, plastic, metal and glass come standard.

In-motion Checkweighers

If product giveaway and fill is of concern, checkweighers are an excellent solution. Our line of checkweighers are modular, easy to incorporate into your existing line, have a small footprint, and are efficient with the ability to process up to 400 pieces per minute! Pair with a rejector to automate the rejection process.

Metal Detectors

In facilities with metal machinery and risk of metal contamination, our metal detectors can detect ferrous, non-ferrous and stainless steel pieces as small as 0.2 millimeters that's smaller than a grain of sand! These metal detectors are stainless steel and wash down rated for easy cleaning and maintenance.

X-ray Systems

The ProteX X-ray series is a smart inspection system that can be programmed to work specifically for your products. Features like masking, missing components and misshaped product detection and identify a variety of contaminants including bone, plastic, metal and glass come standard.
